Employment

ZEW – Leibniz Centre for European Economic Research
Environmental and Climate Economics
Researcher, 2023–present.

Education

University of Mannheim: *Ph.D. in Economics*, 2021–present (expected completion: Summer 2027).
Advisors: Prof. Ulrich J. Wagner, Prof. Sebastian Rausch

Humboldt-Universität zu Berlin: M.Sc. Economics, 2018–2021

University of Mannheim: B.Sc. Economics with minor in Mathematics, 2012–2016.

Research Visits

Toulouse School of Economics (Host: Prof. Mathias Reynaert), November 2026.

London School of Economics and Political Science (Host: Prof. Simon Dietz), September–October 2026.

Tsinghua University (Host: Prof. Da Zhang), April 2026.

Carnegie Mellon University (Host: Prof. Valerie J. Karplus), September 2025.

Research Interests

Environmental Economics, Empirical Industrial Organization

Research

Job Market Paper

The Structural Frictions of Industrial Decarbonization

Abstract: Restricting clean-investment grants to existing plants avoids paying new plants that would be built anyway, but existing plants may need much larger grants to adopt a cleaner technology. To study this trade-off, I estimate a dynamic structural model of the U.S. steel industry, using a novel plant-level panel constructed from industry directories. Each year, old plants choose whether to keep running, close, or adopt the cleaner technology, and new plants whether to enter. Existing plants face two structural frictions that new plants do not: obligations to workers due at shutdown, and a fixed adoption cost that exceeds the cost of new equipment. At equal abatement, this restriction cuts the share paid for investment that would happen anyway from about half to an eighth but barely changes public spending per tonne of CO_2 avoided, because old plants need larger grants. Paying only plants that replace their old technology nearly doubles that spending: owners would rather add the cleaner technology beside the old one and defer the obligations.

Publication

Fueling Electrification: The Impact of Gas Prices on Hybrid Car Usage (with Laura Grigolon and Kevin Remmy), *Journal of the Association of Environmental and Resource Economists*, 2026, Vol. 13, Issue 3, pages 681–711

Replication materials: Harvard Dataverse; media coverage: ZEW press release, *Wirtschaftswoche* (15/2024)

Working Paper

Carbon Price Transmission and Economic Protection: The Design of Border Carbon Adjustments (with Sebastian Rausch and Valerie J. Karplus)

Previously circulated as MIT CEEPR WP 2026-12, USAEE WP 26-671 and ZEW DP 26-021

Policy briefs: MIT CEEPR Research Brief WP-2026-12, ZEW Policy Brief No. 10/2026, Ariadne Background 2026

Presentations

2026: Toulouse School of Economics (Environmental Workshop, France, scheduled); Early Career Workshop on Applied Environmental and Climate (University of Urbino Carlo Bo, Italy); International Alpine Workshop on Energy Economics and Policy (Airolo, Switzerland); Workshop "Economics of Low-Carbon Markets" (University of Oldenburg, Germany); Annual Conference of European Association for Research in Industrial Economics (EARIE, Mannheim, Germany); Economics Job Market Bootcamp (Pitigliano, Italy); ENTER Jamboree (Universidad Carlos III, Madrid, Spain); Mannheim Conference on Energy and the Environment (MCEE, Mannheim, Germany); INDABA Partnership Technical Conference (University of Cape Town, South Africa)

2025: Annual Conference of German Economic Association (VfS, University of Cologne, Germany); Annual Conference of European Association of Environmental and Resource Economists (EAERE, Norwegian School of Economics, Bergen, Norway); Summer Conference of Association of Environmental and Resource Economists (AERE, Santa Ana Pueblo, USA); AURÖ Workshop for Young Researchers in Environmental and Resource Economics, German Economic Association (VfS, Mannheim, Germany)

2024: AURÖ Workshop for Young Researchers in Environmental and Resource Economics, German Economic Association (VfS, Karlsruhe, Germany).

Teaching Experience

Heidelberg University

Supervision of group projects in *Applied Equilibrium Analysis in Environmental and Energy Economics* (Master's level, Winter 2026/27, Winter 2025/26, Winter 2024/25; as *Quantitative Methods in Energy and Environmental Economics*, Summer 2023)

Humboldt-Universität zu Berlin

Econometrics Preparatory Course (Master's level, Winter 2020/21, Winter 2019/20)

Tutorials in *Econometric Methods* (Master's level, Winter 2020/21, Winter 2019/20)

Professional Service

Referee, *Journal of the Association of Environmental and Resource Economists*

Co-organizer, 13th–15th Mannheim Conference on Energy and the Environment, 2025–2027

Organizing Committee Member, AURÖ Workshop for Young Researchers in Environmental and Resource Economics, German Economic Association (VfS), 2025

PhD Representative, Department Council of the Department of Economics, University of Mannheim, 2024

Software

GAMS for VS Code: development of a Visual Studio Code extension for GAMS

Personal Information

Citizenship: South Korea (Permanent Resident of Germany)

Languages: English (fluent), German (fluent), Korean (native)
